

## **Floridians for Safe Communities Recommendations**

The Floridians for Safe Communities I recommends that I-Code and NFPA model code updates that meet the following criteria should be placed on the consent agenda for the Florida Building Commission and that Rule 61G20-2.002, Updates and Amendments to the Florida Building Code, be revised accordingly:

1. All new or revised and definitions;
2. All model code updates with no cost impact;
3. All model code updates that are editorial improvements;
4. All model code updates that simplify or re-organize content;
5. All model code updates that improve coordination with the other referenced I-Codes or referenced standards;
6. All model code updates necessary to coordinate with new construction methods, new products or new or revised referenced standards.
